Feature: check the Image_not>Loading User functionalities

Scenario: Validate user2 product image not displayed and login

- ✓ **Given** open the Browser
- ✓ **When** redirect to signin
- ✓ **And** login with the user2
- ✓ **And** user had looged in
- ✓ **And** check the products
- ✓ **And** image should not be displayed for the products
- ✓ **And** then click on logout
- ✓ **And** logout successfully
- ✓ **Then** validated the user2 functionalities

file:///C:/Users/shashank/Desktop/Java%20Selenium/Capstone_Project/src/test/resources/features1/User3_Functionalities.feature

Feature: check the existing_orders_user functionalities

Scenario: Validate user3 prevoius orders and login

- ✓ **Given** go to website and it should be opened in Browser
- ✓ **When** navigate to signin
- ✓ **And** login with the user3
- ✓ **And** user should had logged in
- ✓ **And** go to the orders page
- ✓ **And** check the previous orders products
- ✓ **And** click on signout
- ✓ **And** signed out successfully
- ✓ **Then** validated the user3 functionalities

file:///C:/Users/shashank/Desktop/Java%20Selenium/Capstone_Project/src/test/resources/features1/User4_Funct.feature

Feature: check the fav_user functionalities

Scenario: Validate user4 prevoius orders and login

- ✓ **Given** go to website
- ✓ **When** redirect to login
- ✓ **And** signin with the user3
- ✓ **And** user should had logged in with user3 credentials
- ✓ **And** go to the favourites page
- ✓ **And** view the products
- ✓ **And** remove products from favourites
- ✓ **And** click on logout option

- ✓ **And** logged out from the bstackdemo
- ✓ **Then** validated the user4 functionalities

✓ ✓ file:///C:/Users/shashank/Desktop/Java%20Selenium/Capstone_Project/src/test/resources/features1/User5_Func.feature

Feature: check the locked_user functionalities

Scenario: Validate user5 login functionality

- ✓ **Given** redirect to webpage
- ✓ **When** navigate to login page
- ✓ **And** enter the user5 signin credentials
- ✓ **And** user not able to login to website
- ✓ **Then** validated the user5 login
