Scenario: shopping with the user1 id #
file:///C:/Users/shashank/Desktop/Java%20Selenium/Capstone_Project/src/test/resources/features1/FiltersWithUser1.feature:5
Sep 07, 2025 6:57:37 PM org.openqa.selenium.devtools.CdpVersionFinder findNearestMatch
WARNING: Unable to find CDP implementation matching 140
Sep 07, 2025 6:57:37 PM org.openqa.selenium.chromium.ChromiumDriver lambda$new$5
WARNING: Unable to find version of CDP to use for 140.0.7339.80. You may need to include a dependency on a specific version of the
CDP using something similar to `org.seleniumhq.selenium:selenium-devtools-v86:4.22.0` where the version ("v86") matches the version
of the chromium-based browser you're using and the version number of the artifact is the same as Selenium's.
? Given open the browser # StepDefination.FiltersWithUser1.open_the_browser()
? When go to the login page # StepDefination.FiltersWithUser1.go_to_the_login_page()
? And login to the website with user1 credentials #
StepDefination.FiltersWithUser1.login_to_the_website_with_user1_credentials()
? And search the product # StepDefination.FiltersWithUser1.search_the_product()
? And High to Low filters # StepDefination.FiltersWithUser1.high_to_low_filters()
? And Low to High filters # StepDefination.FiltersWithUser1.low_to_high_filters()
? And select the brands from the vendors filter #
StepDefination.FiltersWithUser1.select_the_brands_from_the_vendors_filter()
? And select a product from the particular brand #
StepDefination.FiltersWithUser1.select_a_product_from_the_particular_brand()
? And apply the low to high filter #
StepDefination.FiltersWithUser1.apply_the_low_to_high_filter()
? And apply the high to low filter #
StepDefination.FiltersWithUser1.apply_the_high_to_low_filter()
? And logout from the page # StepDefination.FiltersWithUser1.logout_from_the_page()
Searched products and slected product from the brands and applied the filters
? Then the user is successfully selected product and applied filter #
StepDefination.FiltersWithUser1.the_user_is_successfully_selected_product_and_applied_filter()
```

```
Scenario: adding multiple products to cart from different brands #
file:///C:/Users/shashank/Desktop/Java%20Selenium/Capstone_Project/src/test/resources/features1/MultiProducts.feature:2
Sep 07, 2025 6:58:03 PM org.openqa.selenium.devtools.CdpVersionFinder findNearestMatch
WARNING: Unable to find CDP implementation matching 140
Sep 07, 2025 6:58:03 PM org.openqa.selenium.chromium.ChromiumDriver lambda$new$5
WARNING: Unable to find version of CDP to use for 140.0.7339.80. You may need to include a dependency on a specific version of the

of the chromium-based browser you're using and the version number of the artifact is the same as Selenium's.
? Given open the website #
StepDefination.MultiProdutsToCart.open_the_website()
? When redirect to the authenticate page #
StepDefination.MultiProdutsToCart.redirect_to_the_authenticate_page()
? And enter the user details #
StepDefination.MultiProdutsToCart.enter_the_user_details()
user successfully entered the page
? And user had successfully entered to the page #
StepDefination.MultiProdutsToCart.user_had_successfully_entered_to_the_page()
? And search the different products #
```

```

StepDefination.MultiProdutsToCart.search_the_different_products()
    ? And sort the products from the increasing order #
StepDefination.MultiProdutsToCart.sort_the_products_from_the_increasing_order()
    ? And add items to the cart from each brands #
StepDefination.MultiProdutsToCart.add_items_to_the_cart_from_each_brands()
added products to the cart from different brands
    ? And different items should added successfully to cart #
StepDefination.MultiProdutsToCart.different_items_should_added_successfully_to_cart()
    ? And Increase the product quantity in the cart #
StepDefination.MultiProdutsToCart.increase_the_product_quantity_in_the_cart()
Increased the count of items in the cart, items were added to cart from different vendors
    ? Then Added different items from the different brands to the cart successfully #
StepDefination.MultiProdutsToCart.added_different_items_from_the_different_brands_to_the_cart_successfully()

Scenario: Subscribe to the news letter and check other sections #
file:///C:/Users/shashank/Desktop/Java%20Selenium/Capstone_Project/src/test/resources/features1/OtherModules.feature:2
Sep 07, 2025 6:58:32 PM org.openqa.selenium.devtools.CdpVersionFinder findNearestMatch
WARNING: Unable to find CDP implementation matching 140
Sep 07, 2025 6:58:32 PM org.openqa.selenium.chromium.ChromiumDriver lambda$new$5
WARNING: Unable to find version of CDP to use for 140.0.7339.80. You may need to include a dependency on a specific version of the
CDP using something similar to `org.seleniumhq.selenium:selenium-devtools-v86:4.22.0` where the version ("v86") matches the version
of the chromium-based browser you're using and the version number of the artifact is the same as Selenium's.
    ? Given open the bstackdemo # StepDefination.OtherModules.open_the_bstackdemo()
    ? When redirect to sign page # StepDefination.OtherModules.redirect_to_sign_page()
    ? And enter the login details # StepDefination.OtherModules.enter_the_login_details()
    ? And go to the newsletter section # StepDefination.OtherModules.go_to_the_newletter_section()
    ? And enter the email address and subscribe it #
StepDefination.OtherModules.enter_the_email_address_and_subscribe_it()
Subscribed to newsletter
    ? And user should successfully subscribed to the newsletter #
StepDefination.OtherModules.user_should_successfully_subscribed_to_the_newsletter()
    ? And go to the privacy policy section # StepDefination.OtherModules.go_to_the_privacy_policy_section()
    ? And read the privacy policy # StepDefination.OtherModules.read_the_privacy_policy()
    ? And go to the offers section # StepDefination.OtherModules.go_to_the_offers_section()
checked the offers page
    ? And check any offers are available # StepDefination.OtherModules.check_any_offers_are_available()
Offers page validated successfully
    ? And if any offers are available add the products to the cart #
StepDefination.OtherModules.if_any_offers_are_available_add_the_products_to_the_cart()
    ? And if there are no offers are available, go to the main page #
StepDefination.OtherModules.if_there_are_no_offers_are_available_go_to_the_main_page()
Checked is there any offers available in the offer section and also subscribed to the NewsLetter
    ? Then Explored all the Modules # StepDefination.OtherModules.explored_all_the_modules()

Scenario Outline: Shop from vendors
